The World Amateur Golf Ranking (WAGR) from The R&A is now available live online at www.randa.org/wagr. Created as the universal standard for entry into The Amateur Championship, the ranking is a weekly performance table of the world's top 1200 players in men's amateur golf.

National handicapping systems will no longer be used as the primary condition to identify the international starting field of 288 players in The Amateur, to be played this year at Royal Lytham & St Annes and St Annes Old Links Golf Clubs between 18 & 23 June.

The Amateur field in 2007 will feature an established number of exempt players and approximately the top 250 that enter, from those ranked 1- 800, on The R&A World Amateur Golf Ranking.
